

PROTECH SERVICE BODY CABRACKS

ProTech Aluminum Service Body Cabracks are made to fit seamlessly with your truck’s service body. These cab racks are built to last and fit flush with your service body using a proprietary heptagonal formed tube. With no bends, our aluminum cab rack delivers the equivalent deflection strength of steel with significant weight savings and durability. These racks are available unpainted or powder coated in gloss black, gloss white or matte textured black.

If these options aren’t what you need, we’ll make it. Any size. Any material.

SHOWN: 57-7518

SERVICE BODY CAB RACK

Aluminum cab rack; mesh insert; 10” foot; 18” high; 53” inbed width.
